

Lift Design

Lift cabin LC Exclusive

LC Exclusive

Premium lift cabin with mirror stainless steel details

Floor

On the floor you will find a special natural material **MARMOLEUM**. This material is made of linseed oil, resin, wood flour, limestone, pigments and jute fabric (Marmoleum is made from natural ingredients (97%))

Walls

- a) **Two-layer walls** – galvanized steel sheet + decorative laminate **POLYREY** (high-pressure resistant, abrasion resistant, hardened laminate)
- b) **Stainless steel walls** – Whole lift car can be made of stainless steel - brushed or mirror
- c) **Glass walls** – cabin walls can also be made of clear glass (If your lift is also in a glass elevator shaft, you have a nice view inside of your building or outside to a nature or city)

Front entrance portals and rear corner parts (bevelled at an angle of 45°)

- a) Polished stainless steel (mirror)
- b) Stainless steel K400 (brushed)

Floor kick plates are made of brushed stainless steel K400. They are 100 mm high and perforated to ensure lift cabin ventilation.

Information panel in a stainless-steel frame

Lighting

Ceiling lightning (LED)

- a) Nebbia - Standard type of ceiling lightning (mirror stainless steel details)
- b) Pattern – you can also have ceiling with a pattern (see page 7)
- c) Glass ceiling with LED lighting

All types of ceiling lightning have **LED** lights with diffuser and cooler for long life.

Handle

Handle:

- a) Round stainless-steel handle (diameter 42 mm)
- b) Square stainless-steel handle 40 x 40 mm

Cabin operator panel

Lift cabin operator panel is composed of black or white polycarbonate glass with display, intercom system and pushbuttons (see page 3).

Lift cabin panel has a side lightning (red colour for lift going down, green colour for lift going up, white colour appears when lift is in a station)

Whole panel is in a stainless-steel plate (mirror or brushed)

Display:

- a) **Small colour LCD display (4,3")**
- b) **Medium colour LCD display (7")** – it can show photos or small notes on the screen
- c) **Touch display** - Control your lift only by touch. Special **Touch display** can show weather information, time, date, latest news and videos (you can watch newest movie trailers in your lift cabin)

Landing pushbuttons

Landing pushbuttons – black or white panel with pushbutton and display

- a) One pushbutton in the lowest or highest floor (one direction)
- b) Two pushbuttons in other floors (going up or down)

Other equipment

Seat for people with disabilities or when you are just tired and want to sit down

Mirror 600 x 900mm with sandblasted details

Mirror on half wall

Ventilation module under the ceiling

Information system in car is made of stainless steel (st.)

Car door

Automatic car door

- a) Stainless steel – mirror or brushed
- b) RAL colours
